

Tristania - Midwintertears

tom:
 Shadow cast upon my heart
 Endark thy bleak midwintertears
 Condemned to mourn in silence
 The pale moonrise in her eyes
 Serene like a frozen stream
 The flowing beauty in thy tears

 I crave for thee my once beloved
 Beyond the veils of darkness lost
 Where now thy roses wrapped in dusk

 Trespass my undesired darkness

 Silent, she comes through the night
 Desiring a silver light
 Leaving, with dusk in her eyes
 Descending from paradise

 All souls she abuses
 Can only be achieved through death

 When the savage want see you lost
 Morning still in darkness lost

Em
 Dark enchantress
 The seventh full moon rise, full moon rise!
 I drown in dusk and dark rivers

Em
 Summon all my dreams
 Like roses on your epigraph
 Written in my tears
 Thy sorrow and my bleeding heart

Em
 She comes so serene
 My fallen beauty crowned with leaves
 Take me to thy dream
 Thy candle will forever burn in me
 I'll live inside a darkness
