

Tuatha De Danann - Tingaralingadun (the Dwarfs rebellion)

Tom: C
Intro: A 4x E A 2x

A
They say we all are "things" from kids beliefs
And say we're all just fantasy
They burn our woods and kick our little houses

They're wrong! They're wrong! They're wrong

They're wrong! They wrong!

A
We don't agree with the shit they do to us!
They say we're not real. They're all wrong!
They shall begin believe we do exist

They will! They will! They will! They will! They

will

(F Am)3x (F E)

We love the trees, we love the rats

We kiss the roots, we love the land

We love the lakes and we roll in the sand

But they can't understand it because

They only think in them selves, the rest is forgotten

Their things are done and over others build their pride
Our lives are bothered

Forgetting the ancient ones...

A
Ok my friend we're here to say goodbye
We can't accept this situation anymore

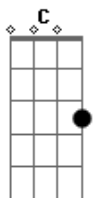

You must look at the beautiful man who lives and

hides inside your head

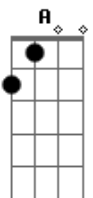

Forget this little man you've been

You must believe us... goodbye
