Walk the layout, routines in the night
     Gbm                    E
Some doors have ?stay out? spray painted in white
     D7M                    Dbm
While all the world?s asleep, I walk around instead
  Gbm                  E
Through the memories, down the halls of my head
D7M               Dbm

[Primeira Parte]

D7M               Dbm                    Gbm
Here comes a new night but I?ll send it through
                  E
I?ll probably jump on the next one
D7M               Dbm                    Gbm
I?m testing the limits of what a mind can do
                  E
I?m keeping my eyelids up, no matt?r what

[Pré-Refrão]

D7M        Dbm            Gbm
So beautiful, the space b?tween
              E                    D7M
A painful reminder and a terrible dream
           Dbm                Gbm
I?ve been here before and I?ve got time
                  E
I?ll give you the tour, show you why I?

[Segunda Parte]

Gbm
Reoccurring, keeps coming around
Rem cycle skip, night psycho trip
        Gbm
It?s reassuring you keep coming around
It?s tough to find good company
Gbm
Reoccurring, days blurring
                                        Gbm
I?m still learning what this is (What this is, what this is,
what this is)
Just keep me company
