

TOMORROW X TOGETHER - Magic

```
tom:
                                                                 [Pré-Refrão]
            [Primeira Parte]
Remember how I used to be so
Stuck in one place so cold
Feeling like my heart just froze
Nowhere to go with no one, nobody
                                                                 [Refrão]
Suddenly you came through
Making me make a move
Nobody got it like you
I can't look away, I can't
[Pré-Refrão]
'Cause baby, you're a real one, real one
Teaching me to feel something
                                                                 Giving me life
So strong (strong)
We could reach out and grab it
[Refrão]
                                                                 [Ponte]
Oh, it's just like magic
Feeling your touch, oh, it's a rush
No one else has it
Oh, just like magic (just like magic)
Oh, it's just like magic
Holding me tight
Giving me life
Oh, it's magic (magic)
Oh, it's magic (oh, it's just like magic)
Oh, it's magic, oh, it's magic
Just like magic
Oh, it's magic
Magic
[Segunda Parte]
Used to be so afraid
'Fraid of all the games we played
Waited around all day
Nowhere to go with no one, nobody
                                                                 [Refrão]
Hoping someone would save me
Till you called out my name
Something in me just changed
```

```
Got me awake, got me
'Cause baby, you're a real one, real one
Teaching me to feel something
So strong (strong)
We could reach out and grab it
Oh, it's just like magic
Feeling your touch, oh, it's a rush
No one else has it
Oh, just like magic (just like magic)
Oh, it's just like magic
Holding me tight
Oh, it's magic (magic)
Oh, it's magic (oh, it's just like magic)
Everybody clap your hands (no, no, no)
If you've got a broken heart
Just take a chance (oh, oh, no, no, no)
I say everybody clap your hands
If you've got a broken heart
Just take a chance (magic, magic)
Everybody clap your hands
If you've got a broken heart
Just take a chance (chance)
I say everybody clap your hands
If you've got a broken heart
Just take a chance (ooh)
Everybody clap your hands
If you've got a broken heart
Just take a chance (chance)
I say everybody clap your hands
If you've got a broken heart
Just take a chance, say
Oh, it's just like magic
Feeling your touch, oh, it's a rush
```
