

Ty Herndon - Hands Of A Working Man

Tom: C

At the local diner just outside of town
 He comes in a hour early just to beat the morning crowd
 He stares out his window and stirs his coffee cup
 Another day another dollar short of catchin'p

Same old job, same old dull routine
 In his heart he knows what it brings

A two bedroom house for his family of three
 He?giving his all makin?nds meet
 A second hand car a washing machine
 They may not have much, but he gets what they need
 With the hands of a working man

(Repeat Chords as above)

Down at the factory standing in line
 He waits to punch the time clock, a million worries on his mind
 Oh, Jimmy?needing braces and Betty?needing time
 And the problems that he?facing they? all building up inside

Same old job, same old dull routine
 But in his heart he knows what it brings
 A two bedroom house for his family of three
 He?giving his all makin?nds meet
 A second hand car a washing machine
 They may not have much, but he gets what they need
 With the hands of a working man

Same old job, same old dull routine
 But in his heart he knows what it brings

(Change key to 1/2 step higher)
 A two bedroom house for his family of three
 He?giving his all makin?nds meet
 A second hand car a washing machine
 They may not have much, but he gets what they need
 With the hands of a working man
