

U2 - Out Of Control

Tom: D

Tune down half a step.

Here's the main Riff:

Repeat the main riff a few times.

Play D and A chords for the verse

D
Monday morning 18 years are dawning

A
I say how long, I say how long etc.

For the chorus play G, A and B chords and arpeggiate them to finish with.

G A
I had a feeling it has out of control

G A
You say, out of control

G A G A B A
Ohhhhh, ohhhhh, ohhh.... ohhh, ohhh, ohhh

G A G A G A B A

That's basically the whole song except for the solo and

bridge:

repeat

repeat

Then play the whole thing again.

Edge sometimes finished with this ending:

After the solo Edge plays some palm muted notes for the bridge (this was the hardest bit to figure out)...

pm.....

pm.....

pm.....

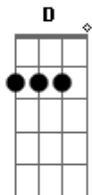

pm.....

pm.....

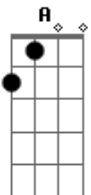

Carry on playing this type of thing.

Finish off the bridge with this when Bono starts shouting 'Outta control...':
