

Uh Huh Her - Covered

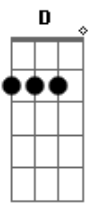

tom:
 Would I fall under that spell again
 I don't think so anymore
 But I don't know what's written
 I'll be there anyway
 Call it love I guess, hotter than the sun
 You can appreciate it
 Oh say hey what you know
 I don't know how to let it go
 Say hey what you know
 Wish you knew what I was thinking
 Hey watch me now
 I know how to level you, hey
 What you gonna say? What you gonna say?
 Hollar now you want it
 Gonna see, see how do you love again?
 Higher than the stars
 She covered in my hands tonight
 (Oh baby)
 Hollar now you want it
 Gonna see, see how do you love again?
 Covered by the dark, no light
 She covered in my hands tonight
 Oh, see all the things that surround you are full of love

Brighter than the stars
 So why all those cold dark hours?
 Oh say hey what you know
 I don't know how to let it go
 Hold on to what you're told
 But I don't know what you've been thinking
 Hey what'd you know
 Guess I don't know anything,
 Won't see you again my love
 You say forever, can't touch it
 Hollar now you want it
 Gonna see, see how do you love again?
 Higher than the stars
 She covered in my hands tonight
 (Oh baby)
 Hollar now you want it
 Gonna see, see how do you love again?
 Covered by the dark, no light
 She covered in my hands tonight(oh baby)
 (Bm D G A)
 Hollar now you want it
 Gonna see, see how do you love again?
 Covered by the dark, no light
 She covered in my hands tonight(oh baby)
