tom:

Intro: Gm Bb A Ab

Gm G7 Cm
Salve a mãe Natureza

A luz da riqueza

O Dono da Terra, a inspiração

A Tijuca festeja o solo sagrado em oração

Sou eu

Do barro esculpido pelas mãos do Criador

Sou eu

Filho dessa terra germinando amor

São lágrimas que caem lá do céu

São raios desse sol em meu olhar

Ao ver a agricultura do Brasil em meu Borel

Sagrada Natureza a nos abençoar

Brota o suor que escorre na enxada

Ara, planta, colhe em devoção

E ver de perto a cria alimentada

Flores que aquarelam a região

Sou matuto sonhador em louvação

Lá no meu interior, a viola dá o tom

Vendo o campo colorido

Cai a noite a me envolver

Vou rogando ao Pai querido

Pra colheita florescer

Vou levantando a poeira da terra

Que aterra a magia do grão

Fertilidade é a arte do homem que cuida

Protege seu chão

Um oásis de conhecimento

Pro pais é um exemplo, a tal capital

O meu negócio é isso, seu moço

Sorriso no rosto

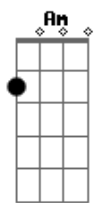

Por esse meu mundão rural

Semeia a minha raiz

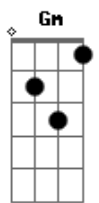

Clareia um belo matiz

O dia vai raiar e o povo há de cantar feliz
