

# Urge Overkill - Dropout

tom:

E

What's the matter with you?

You've been down all day

What happened to you

To make you feel that way?

Baby aint that a shame when they call you those names

Dropping out from school

Guess it wasn't so cool

Everyone, everyone needs... some space... to breathe

All the time... we have been blind... so blind

Yeah we just couldn't see it

Yeah you're too old to cry

Too young to die

What happens in the in between?

Don't you think its strange, things just change

Its just a burnt out town, its a burnt out scene

You've been a dropout ever since you've been seventeen

Lonley child when will you see?

You need... to be free

Often times people they find

They're not blind

Yeah, they just don't see

( Db D Db B Db D Db B )

Lonely child listen to me

Its just a burnt out town

Its just a one horse scene

Gotta get away, gotta get away, you got to

Hanging out in the parking lot at Dairy Queen

You've been a dropout ever since you've been seventeen

Gotta get away, gotta get away, you got to

Gotta get away, gotta get away, you got to

You got to

You got to

End on
