

# Vamps - Vampire's Love

tom:

Intro: G A D G  
 G A D G  
 G A Bm D  
 G A D Gbm

The dazzling smile  
 Was just beyond my reach  
 How sweet and innocent you were  
 If I could cross my night into the sun  
 All my words to you  
 I still wonder what I'd say  
 Stray dream of you  
 Lights the chain of stars to find their way  
 In the darkest night of my lost and frozen heart  
 Long ago  
 Even if things don't change  
 So the shadow's dark would cloud your clear skies  
 I watched over you  
 Even in the dark from you  
 Stray dream of you

Lights the chain of stars to find their way  
 In the darkest night of my lost and frozen heart  
 Even now  
 Even now  
 More than the world  
 And more than life  
 You mean so dear  
 You won't be hurt  
 My words to you  
 Gently whispered through the window pane  
 They just fade away  
 From my lips I love you  
 Stray dream of you  
 Lights the chain of stars to find their way  
 In the darkest night of my lost and frozen heart  
 Even now  
 [Final]
