

Van Morrison - Beside You

```
Tom: G
                                                                       To never never wonder why at all
   (intro) Em D Em C Em Am D
                                                                To never never wonder wh - y it's gotta be
      Little Jimmy's gone
                                                                  Em
                                                                It has to be
Em
      Away out of the backstreets
Fm
                                                                Way across the country where the hillside mountain glide
     Out of the window
                                                                The dynamo of your smile caressed the barefoot virgin child to
     To the fog and rain
                                                                Past your window with a lantern lit
D
                                                                You held it in the doorway and you kissed against the pointed
     Right on time
                                                                island breeze
                                                                Said your time was open, go well on your merry way
Right on time
                                                                Past the brazen footsteps of the silence easy
That's why Broken Arrow
                                                                You breathe in you breathe out you breathe in you breathe out
                                                                you breath in
Waved his finger down the road so dark and narrow
                                                                you breathe out you breathe in you breathe out
And all the dogs are barkin'
                                                                And you're high on your high-flyin' cloud Wrapped up in your magic shroud as ecstasy surrounds you
      Just before the Sunday six-bells chime, six-bells chime
                                                                This time it's found you
     And all the dogs are barkin'
                                                                You turn around you turn around you turn around you turn
                                                                around
