

Van William - Revolution

```
Intro: B Eb Abm E
Lost my valentine
You could never keep my meaning straight
And i won't wait in line
for you to give me any time of day
I want a revolution
                            Abm
You want a short solution
We never could see eye to eye
You wanted retribution
                                Abm
I came to the same conclusion
It's a story as old as time
I heard you crying in the other room
B Eb Abm E
Try to test the ice
I could hear it cracking underneath
There's no compromise
If both of us are aching to be free
I want a revolution
                            Abm
You want a short solution
```

```
We never could see eye to eye
You wanted retribution
                                Abm
I came to the same conclusion
It's a story as old as time
I heard you crying in the other room
(B Eb Abm E)
It took a lifetime
For us to see that it's too late?
                 Abm
We're up against fate
And after all of this
you keep ignoring the signs
The waters run dry
I want a revolution
                            Abm
You want a short solution
We never could see eye to eye
You wanted retribution
                                Abm
I came to the same conclusion
It's a story as old as time
I heard you crying in the other room
