u = up pick m = Mute string immediately after note(s) is heard.

a = Pluck aggressively

```

u          m          u          m          m          a          u
          u          m          m          a
a          u          u          m          u
    
```

The Rythm played When he is singing is;

```

          u          u
u          u          m          m
    
```

The Rythm In Between Each Line;

```

u          u          u          u          a          u
    
```

Have the Fret/Middle pickup selected for more similar sound.
Tab is probably not 100% currect as im not very good, but listen to the dvd or mp3 and what you think is wrong.
