

Eddie Vedder - Invincible

tom:

Intro: D C G

Can you hear? Are we clear?
Cleared for lift off, takeoff
For making reverberations
Are we affirmative? No negatory
Come in, come in
Radio, what's your story?
Are you Oscar Kilo?
Will you Wilco?
Are you ready for a bit of
A bit of echo victor?
Feeling wider than awake, yeah
Better crooked not straight

[Refrão]

Invincible when we love
Invincible when we love
When we love

Check out Musical Tips from our BLOG

[Primeira Parte]

Now there's smoke on the horizon
And the clouds are looking violent
There's a future in need of a frame
Compass spinning in my brain
There's a theory for everything
Resurrection to the big ol' bang
Rachmaninoff to the excitement gang
We got the density of our beings
The unbearable weight
The unbearable light
The unbearable weight
Let's lift it up

[Refrão]

Invincible when we love
Invincible when we love
When we love

Invincible when we love
Invincible when we love
[Ponte]
Feeling honest as a promise
Troubled times have come upon us
At the core of the cosmos
We are so much more than particles
Sonic to the subatomic
You are a whisper and a scream
You are, we are
All part of this everything
Yeah, so feel important

[Pré-Refrão]

You are light, you are principle
When you love: invincible
Our shared light indivisible
When we love, we're invincible

[Refrão]

Invincible when we love
Invincible when we love
Invincible when we love
Invincible when we love
When we love
[Final]

The humanity, the calamity
The spilling blood, the gravity
We got the heavens
We got the Earth
And in between, we got big surf
Who could ask for more?
The only rule is to
Keep your cool
When we love, we are light
Hey, you got a light?
