All chord and times are approximations. This song is supposed to be in drop D tuning (DGCFA^d). I tuned the song to standard tuning (don't like switching back and forth too much). This sounds pretty close to the song. If you don't like it, just play the chords 1 step higher (F = G; Bb = C and so on) on drop D. Solo is the same way (5=7). I didn't quite get all the riffs in the verses. They change many times. I'll work on that later. This is a beautiful song (my favorite VU song). It is not too difficult either. Enjoy it.
