

Villagers - Dawning On Me

Tom: G

Intro: Em D Bm C

I've been awake for so long now

Just can't get to sleep

You've been tugging at my eyelids

You've been dawning on me

And there's a light coming through the window

But i all can see

Is the light of your love

You've been dawning

Dawning on me

I've been awake for so long now

Just can't get to sleep (dawning on me)

You've been calling on the sunlight

You've been dawning on me

From your lips, to your belly
To your knees and your feet (dawning on me)

And the spirit that moves them

You've been dawning

Dawning on me

you've been dawning on me

I've been awake for so long now

Just can't get to sleep (dawning on me)

You've been delivering the daydream

You've been dawning on me

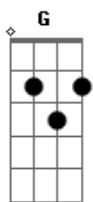

And there's a light coming through the window

But all i can see (dawning on me)

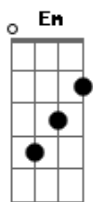

Is the light of your love

You've been dawning, dawning on me
