m [Intro] Ab Cm Bb

Ab Cm Bb  
I've been looking around just to see your ghost  
Marching to the clockwork

Ab Cm Bb  
I was fooling around when I saw you first  
Just a shadow in the crowd

( Ab Cm Bb )

Ab Cm Bb  
I would ride you along to the warm old room  
Caught you waiting for a taxi

Ab Cm Bb  
In a winter night tell me where do you go  
We're hanging in the sea road

( Ab Cm D7 )

Ab Cm D7  
Feel the days and the minutes comin up slow  
Lying in bed just waiting for the sun to go

Ab Cm D7  
Feeling I would just find you in the backdoor  
Coming in flames and falling to the kitchen floor

Ab Cm Eb D

Ab Cm Bb  
I would follow your words loud and clear  
My mouth was like a desert

Ab Cm Bb  
Then I found you alone, choking in tears  
Did it feel so unreal

( Ab Cm D7 )

Ab Cm D7  
When I saw you come flying through the window  
I saw you finally coming out of my control

Come close and surround me in a cold storm  
I ran burning insane to the corridor

Sent you away

To that old ghost downtown  
Where my eyes can't reach your face

Was I supposed to know
