

Violet Soda - Black Lungs

```
What I did to me?
                        I think I won?t last
My lungs are black and I have failed the test
                  I shouldn?t let this happened
                      Em
                                      C
Cause now I know how long you?re gonna stay yeah! (Just stay!) You?re my favorite thing
Never wanna make you cry, but sometimes I will
And when I try to tell a lie, you already know my tricks
You?re my favorite thing
                            in this bad moment
Never wanna make you cry, but sometimes I will
And when I try to tell a lie, you already know my tricks
                          in this bad moment
You?re my favorite thing
