

# Volbeat - Goodbye Forever

tom:  
G

[Primeira Parte]

Did you say the thing you wanted? Have you ever felt in love?

A moment where no problems would ever get you down

Free as an eagle but only for a day (yeah, listen)

The final is a warning, wake up before you go

There'll be no second chances, that day you're on your own

Let out the feelings, tomorrow may not come

[Chorus]

All alone in the dark

Move the curtains for once

See the light life has brought, or goodbye forever

Take the arms that embrace

No more being afraid

Feel the sun on your face, or goodbye forever

[Segunda Parte]

Were you listening to the evening? Have you ever felt the dawn?

When everything around you told stories from the world

Dear mother nature speaks louder than you know (oh, listen)

The final is a warning, wake up before you go

There'll be no second chances, that day you're on your own

Let out the feelings, tomorrow may not come

[Refrão]

All alone in the dark

Move the curtains for once

See the light life has brought, or goodbye forever

Take the arms that embrace

No more being afraid

Feel the sun on your face, or goodbye forever  
[Ponte]

We are the birth

We are the end

We are the souls

We have a name

We are the rising and fallen ones

We are the spirit, forever more

We are the birth

We are the end

We are the souls

We have a name

We are the rising and fallen ones

We are the spirit, forever more

[Refrão]

All alone in the dark

Move the curtains for once

See the light life has brought, or goodbye forever

Take the arms that embrace

No more being afraid

Feel the sun on your face, or goodbye forever

All alone in the dark

Move the curtains for once

See the light life has brought, or goodbye forever

Take the arms that embrace

No more being afraid

Feel the sun on your face, or goodbye forever

( D )
