

Volbeat - The Bliss

Tom: **G**

(com acordes na forma de **A**)

Afinação: **D G C F A D** Verso:

Memory, your lamp light is burning holes

Recover the damage, bring it all home

Follow the bliss just like Summer song

Please stay there forever, I'll try to remember

Come home

Memory, you gave me another note

A voice that is endless, bring it all home

Oh what it is feels like a Summer song

I'll stay here forever, her face I remember

Refrão:

Presenting a new beginning

Forever you and I

And when the morning gets lonely

And life is out of sight

Then we'll be leaving together, you and I

Verso:

Happiness, I'm sorry you've been on hold

The doors will be open, bring it all home

Cause what it is feels like a Summer song

I'll stay here forever, now that I remember

Refrão:

Presenting a new beginning

Forever you and I

And when the morning gets lonely

And life is out of sight

Then we'll be leaving together, you and I

Ponte:

For all these symbols don't open our eyes
We'll close them instead, leave the messenger behind

But one day we will know...

Refrão:

Presenting a new beginning

Forever you and I

And when the morning gets lonely

And life is out of sight

Then we'll be leaving, then we'll be leaving...

Presenting a new beginning

Forever you and I

And when the morning gets lonely

And life is out of sight

Then we'll be leaving together, you and I

Then We'll be leaving together, you and I

Then We'll be leaving together, you and I
