

# Wallows - Anytime, Always

tom:

Dbm

I only need a shoulder to cry on, cry on

So please would you leave me a light on? Light on?

And I'll come by when you don't mind

But not if it'll only waste your time

Well, you can call me anytime, always

You can call me anytime, always

You can call me anytime, always

You can call me anytime

( Gbm Dbm A E )

I hope you whisper close when you lean in, lean in

And please give me some kind of reason, reason

To let go of the state of mind

That the only time I waste is mine

Well, you can call me anytime, always

You can call me anytime, always

You can call me anytime, always

You can call me anytime

Can't think of the last time that I truly smiled

Abm

Till you looked up at me, could you stay a while?

Dbm

Let's look back on past times, the good and the bad

A

Let's make up the best years you and I have ever had

E

Can't think of the last time that I truly smiled
