                                                               We're not alone
I'm not doing anything today
I don't care what you say
                                                               I believe
                                                               [Solo]
I'm not going out

I'm staying home
                                                               Have I lived to long?
I don't really wanna act afraid

Not about you about anything
                                                               Why does my head hurt?
I can't pretend this is all a dream

                                                               I can't decide if I'm getting
Have I lived to long?
                                                               Getting worse

                                                               I'm getting worse
Why does my head hurt?
                                                               I'm getting worse
                                                               I'm getting worse
I can't decide if I'm
Getting worse
                                                               We're not alone
Having fun when I'm alone
                                                               We're not alone
I don't have to put on a show
Cause everything around me isn't real
                                                               I believe

Not taking off I'm just taking a break
                                                               We're not alone
Not just from you from everything

I can't pretend this is all a dream
