

We Are Harlot - Denial

tom:

D

I bought a one way home

Tonight I'm not sleeping alone

I'm on my way back, baby

I'm on my way back, baby

I've been, lost on out on the road

D

I'm on my way back, baby

I'm on way back home

Yeah-yeah-yeah, yeah-yeah!

(**D F C D F C**)

D

I'm on my way back

Scratching and sweating and screaming

I'm on my way back

Can't help but feel these things I'm feeling

I'm on my way back

Start it off nice and slow

I'm on my way back

Then I'm digging in and taking the gold

Give me an instance of one night that we've spent alone

Without the instant sense of where that night's gonna go

I felt these shivers before

Draw the windows, lock the doors

Let's do it till we can't see no more

Give me that love I adore

Bb F C

I've waited for so long

And I won't wait one minute more

Bb F C

To have you by my side, (Back into my life)

Bb F C

I've missed this like you don't know

Am

And now I can't believe it's real

Bb F C

The love for you I feel

Digging deeper and deeper again

(**D F C D F C**)

And I'm coming home

D

Hold on baby let's go, you got my heart beating

F C

Ecstasy head to toe, oh is so inviting

D

Let's address this, there's a beating in your chest

F C

Just tell me sex is what you need to fix it

D

You got soul, no control I'm hooked on you

F C

I can't get enough, you're such a rush

D

Ain't got much more, lying flat on the floor

F C

With my heart beating outta my chest, what was I waiting for?

Bb F C

I've waited for so long

And I won't wait one minute more

Bb F C

To have you by my side, (Back into my life)

Bb F C

I've missed this like you don't know

And now I can't believe it's real

Bb F C

The love for you I feel

Digging deeper and deeper again

Bb F C

I've waited for so long

And I won't wait one minute more

Bb F C

To have you by my side, (Back into my life)

Bb F C

I've missed this like you don't know

And now I can't believe it's real

Bb F C

The love for you I feel

Digging deeper and deeper again

(**D F C D F C**)

Digging deeper and deeper again
