When she touched me
 A bang shot through my bones

And lit my soul on fire

She set me free

She filled my heart with pure desire

A beating in my chest I can't resist

And I need it, oh I need it

No, I don't ever wanna let her go, Whoa!

You got me gasping for air

Tryna hold onto your memory

It should be easier to breathe

You knock me off my feet

I won't forget it, c'mon you don't regret it

You got me spinning around

Got my whole world turning upside down

You're impossible to please

I don't wanna go but I know

You should be easier to leave

She's got a something I can't ignore

Get up and I'm needing more

My fill's never quite full these days

And I never wanna wake up

She's got a love that you'd never believe

And I need it, oh I need it

No, I don't ever wanna let her go

You got me gasping for air

Tryna hold onto your memory

It should be easier to breathe

You knock me off my feet

I won't forget it, c'mon you don't regret it

You got me spinning around

Got my whole world turning upside down

You're impossible to please

I don't wanna go but I know

You should be easier to leave
