

We the Lion - Fading

Tom: G

All my world is upside down
 I see you lay on the ground
 I feel your eyes closing forever
 Leaving me behind
 How can the story end
 Where did you go my friend
 Nothing will be the same
 Without you
 Without
 Stay don't leave me on my own
 Oh oh
 I'm afraid you leave me but you go
 Oh oh
 I feel lost confused and unclear
 I see you, what has happened here?
 The fault is mine, you're gone forever

Leaving me alone, leaving me alone
 How can the story end
 Where did you go my friend
 Nothing will be the same
 Without you
 Without
 Stay don't leave me on my own
 Oh oh
 I'm afraid you leave me but you go
 Oh oh
 Stay don't leave me on my own
 Oh oh
 I'm afraid you leave me but you go
 Oh oh
 You'll always be a part of my life
 I thought we were gonna grow old
 But fate has a bitter sweet taste
 I fear,? I've lost it all
