tom:

Intro: Gbm E A
D E Gbm

Honey I thought you should know that I'm in a hurry
I've got to move up north, but it's just temporary
When I look at you I see your beauty
Now my baby boy he's gonna lose me

But heavens not too far away
I know someday you'll visit
And I didn't think I'd go this way
Can I please one more minute?

Gbm E A
No honey I don't want to go
Please know that I have to
Look how the cancer has grown

I think it's time I go home
I can still hear your voice, sounds just like it did
And I can still feel your hand
When it touches my skin

D A
But heavens not too far away
I know someday you'll visit
And I didn't think I'd go this way
Can I please have one more minute?

D A
I gave you life now you gotta watch it leave my eyes
But heavens not too far away
