

# Paul Weller - Rockets

tom:

Intro: C  
 He went off  
 Like a rocket touched  
 Way up in the sky  
 Beyond the bars  
 In our minds  
 Just took off  
 Rocket to the sun  
 Blast his way through here  
 Beyond the world  
 In our eyes  
 We grow up  
 If we can join the dots  
 That got us here to there  
 Beyond our dreams  
 In the spheres

We go off  
 Like little fireworks  
 Exploding in the streets  
 And crumpled sheets  
 Where we lie  
 All our lives  
 The system all decides  
 The institution's old  
 But still in control  
 Nothing in the chambers  
 Worth nothing at all  
 All the wealth is hidden  
 Diamonds a-glistening and solid gold  
 Well, have it all  
 It's worthless
