

# Wes Andrade - Let Me Save You

Tom: G

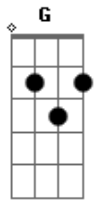

If I can save you  
 To not give up this life  
 Would you get out of this bridge  
 And would give one chance to fight?  
 I know that you have everything  
 But it seems that you have nothing  
 But get up my friend, you are loved  
 By your friends and family  
 So I will sing to you and show you  
 The power of words  
 Don't give up, you are loved  
 Get up your head and see the sky  
 It's a good day to be alive  
 So don't be scared and face your fears  
 And be sure, that even if it doesn't look like

You'll get through this dark times  
 When you feel that you are lost  
 Hold on to who you love the most  
 And I know my friend, that no one knows  
 What you're fighting from the inside  
 And I am your messenger, to say that everything will be all right  
 And we're on the same side  
 ( C D )  
 Don't give up, you are loved  
 Get up your head and see the sky  
 It's a good day to be alive  
 So don't be scared and face your fears  
 And be sure, that even if it doesn't look like  
 You'll get through this dark times  
 So don't be scared and face your fears  
 And be sure, that even if it doesn't look like  
 You'll get through this dark times
