

Westlife - Don't Let Me Go

Tom: **D**
Intro: **D - A - G - A - D**

So much to say
But where do I start?
Would you listen if I spoke from the heart?
It's simple things
That keep us apart
You know it doesn't have to be this way
Can't you hear it in my voice?
You gotta listen when I say:

Don't let me go when I'm this low
Why can't we talk about it?
Why can't we figure it out?
I wanna know as people grow
How do they sort it all out?
Work out what love is about?
So tell me now yeah I've gotta know
When this feeling I've got won't let go

Some people stop
And some people stare
I'm hearing whispers that you no longer care
Should I stay?
Should I turn away?
Stop playing games now you know it's not fair
Can't you hear it in my voice?

You gotta listen when I say:

Don't let me go when I'm this low
Why can't we talk about it?
Why can't we figure it out?
I wanna know as people grow
How do they sort it all out?
Work out what love is about?
So tell me now yeah I've gotta know
When this feeling I've got won't let go

You make me think I've got this feeling for you
I've tried so hard, won't you listen to me?
'Cause we can make it we can see this through
Let me start by telling you:

Don't let me go when I'm this low
Why can't we talk about it?
Why can't we figure it out?
I wanna know as people grow
How do they sort it all out?
Work out what love is about?
So tell me now yeah I've gotta know
When this feeling I've got won't let go
So don't let me go
