

# Westlife - Never Knew I Was Losing You

Tom: C

Intro: C Em Dm F G

I'm feeling so alone, now, tonight  
 Even though you're here by my side  
 Is that something on your mind  
 from the world you left behind  
 I feel as if the love shared before  
 Doesn't wanna be here no more  
 And If there's something on your mind  
 There's ever been a better time  
 To tell me  
 Do you love me  
 Still wanting me  
 Like I need you  
 (Ooooh)  
 Chorus:  
 They came acrossing on the road  
 If only there were signs to show me  
 which direction I should go

I live my life with no regrets  
 It hasn't caught upon the act  
 But I never knew I was losing you (I was losing you 2x)  
 I wonder as you walked through the door  
 Are you gonna hurt me some more  
 Never took him for the kind  
 Who would play upon my mind  
 Tell me what are you looking for  
 I can't play your games anymore  
 And when there's something on my mind  
 I will always find the time  
 To tell you  
 I still love you  
 Still wantig you  
 How I need you (need you)  
 (Ooooh)  
 They came acrossing on the road  
 If only there were signs to show me  
 which direction I should go  
 I live my life with no regrets  
 It hasn't caught upon the act  
 Well, I never knew I was losing you (Looosing you)  
 It's not for the first time  
 That someone else has hurt me  
 By faking it too long  
 Where did we go wrong(Yeah)  
 Espero q este bien BYE...
