

Westlife - When You Come Around

```
Intro: G D Am Am7
The day I was leaving
   D
I was feeling insecure
I thought that I'd thrown away
All of those days
  Am7
And what we had before
And now I believe it
    D
After what you had to say
             Am
I thought about every day
In every way
  Am7
And this is what I'll say now baby
You don't have to worry
'Cause everything's all right
I know that you'll get me
          Am7
That you'll get me through the night
When you come around
You know you pick me up when I'm feeling down
    Am
And I want you to know
Baby how can I show
   Am7
Do I have to scream and shout?
  G
When you come around
You only have to smile and you knock me out
But I'm here on the floor
And I'm begging for more
   Am7
```

Acordes

```
Baby that's what love's about
There's so many reasons
      D
Why our love is guaranteed
      Am
So many reasons why
I can't hide
   Am7
Just what you mean to me
So say what you're thinking
          D
While you're sitting next to me
           Am
Let all your feelings show
Just let me know
   Am7
Just how it's meant to be now baby
You don't have to worry
    D
'Cause everything's all right
Am
I know that you'll get me
That you'll get me through the night
When you come around
You know you pick me up when I'm feeling down
And I want you to know
Baby how can I show
   Am7
Do I have to scream and shout?
When you come around
 D
You only have to smile and you knock me out
But I'm here on the floor
And I'm begging for more
  Am7
Baby that's what love's about (Repeat to fade)
```
