

Weyes Blood - Something To Believe

tom:
[Primeira Parte]
D
Drank a lot of coffee today
Got lost in the fray, I gave all I had for a time
Then by some strange design I got a case of the empties
The ruler of my world, a lost forgotten pearl
When fire leaves a girl
Too burned to dry my life
Living on a fault line
And at night

[Refrão]
A Em
I just laid down and cried
The waters don't really go by me
A Em
Give me something I can see
Bb F C G
Something bigger and louder than the voices in me
D G D Em
Something to believe

[Ponte]
C G
Didn't always do it right
Bb A
Might have left the heat on high
C G
Didn't know I had any left
Bb A
Thought I finally met my death
C G
Gonna do all I can

Acordes

Bb F
Stay away from the quicksand
Abm Cm Eb
Gonna do all I can
[Segunda Parte]
D A Em
Nobody's gonna love you the same way
Some of us go astray, I watch so far from them all
Instead of dropping the ball, I seem to carry so many
The colors don't align, a question of time
I seem to lose what I find
Please give me a sign soon
Really wanna find out the truth
And at night

[Refrão]
D A Em
I just laid down and cried
The waters don't really go by me
Give me something I can see

Something bigger and louder than the voices in me
Something to believe, to believe
