

Whipallas - Welcome To The Start

Tom: G

Borders can be made
Trees may lose their color
Prayers for the rain
Armies can invade
Hands may use the power
Bombs that separate

It seems that we had gone too far
Wherever you are
As long as you take
Welcome to the start
Whatever you are
As long as you make
Welcome to the start

Even now that's just the two of us

And we are ready to prove
Borders we can break
Trees instead of towers
Prayers just to thank
Armies go away
Hands may give you flowers
Bombs to deactivate

It seems that we still have to walk
Wherever you are
As long as you take
Welcome to the start
Whatever you are
As long as you make
Welcome to the start

Even now that's just the two of us
And we are ready to move
