

# Whitesnake - Don't Fade Away

Tom: A

Tom :A

Intro: A

As I stand at the crossroad,

I see the sun sinking low...

With my cross of indecision,

I can't tell which way to go...

Now I have seen the seven wonders

And I have sailed the seven seas,

I've walked and talked with angels,

And danced all night with gypsy queens...

All in all it's been a rocky road,

Twists and turns along the way...

But, I still pray for tomorrow,

All my hopes, my dreams

Don't fade away... Don't fade away...

I have painted many portraits,

Memories of love and pain,

Though cut down by life's deceptions

I found the strength to start again...

All in all it's been a rocky road,

Twists and turns along the way...

Twists and turns along the way...

But, I still pray for tomorrow,

All my hopes, my dreams

Don't fade away... Don't fade away...

Heaven help a man

Trying to make up his mind,

With the darkness closing in,

I feel I'm running out of time...

Shine a light for me,

Help me find the way to go,

And take me where I've never been before...

And so I stand at the crossroad,

Watching the sun sinking low...

With my cross of indecision,

Trying to find the way to go...

All in all it's been a rocky road,

Twists and turns along the way...

But, I still pray for tomorrow,

All my hopes, my dreams

Don't fade away... Don't fade away...Don't fade away...
