 Oh babe, bring it on home to me.

B Sometimes when I'm feeling low, **E**
E I go looking for a lover where the bad girls go **B**
B Sorry little girl, If you can't stay, **E**
E Your red light mama gonna show the way **B**
A And then a certain madness,
 Will 'crease my heart with sadness **B**

Oh babe, bring it on home to me

B D E Take me with you I will give you anything a woman needs, **B**
B D E Take me with you I will give you anything a woman needs **D**

I know love and what it means,
 It's a skinny little girl in tight ass jeans
 I love to hear'em moan and cry,
 'Cos God made men to satisfy
 And with the fire returning,
 I feel the fever burning
 Oh babe, bring it on home to me

Take me with you I will give you anything a woman needs,
 Take me with you I will give you anything a woman needs
 Oh, take me with you.

Every time I see my baby home,
 I wanna kiss a little better so I get stoned
 Gonna spread her pretty legs so I can see,
 Sweet lip honey be the death of me
 And I will discover you'll be my midnight lover,
 Oh babe, bring it on home to me

Take me with you I will give you anything a woman needs,
 Take me with you I will give you anything a woman needs
 Take me with you.
