

Why Don't We - Be Myself

tom:

Intro: C Em F Fm C Em F

Where do I start?

All these thoughts inside my head collide

And I decide I'm staying in tonight

They say follow your heart

But it's beating uncontrollably

I can't hear what it is telling me this time

We're dancing on the edge of anxiety's ledge

And I might fall again, I might fall

We're walking on a rope of worry and I hope

That I don't fall again, I don't fall

Take me somewhere I can be

I can be myself

Oh, take me somewhere I am free

Free to be myself

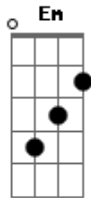

And nothin' else

(Em F Fm C Em F)

I've never had pride

For myself and I'm proud of that

Cause I know that I'm just somebody else

So why do I try? (Why do I try?)

Try to find my validation in what everybody's saying

I need some help

We're dancing on the edge of anxiety's ledge

And I might fall again, I might fall

We're walking on a rope of worry and I hope

That I don't fall again, I don't fall

Take me somewhere I can be

I can be myself

Oh, take me somewhere I am free

Free to be myself

And nothin' else

(Em F Fm C Em F)

We're dancing on the edge of anxiety's ledge

And I might fall again, I might fall
