 Intro: C G C F

I stepped back just to frame it  
           C F G  
 And I didn't know too much  
 Am D  
 Now my eyes tried to cut through lies  
           F C  
 I was losing touch

Darling I didn't know nothing  
           C F G  
 Head like a head full of wine  
 Am D  
 Came like a curse I was down in the first  
           F C  
 You didn't use your eye

G C F  
 Oh my you just gotta take a piece of me  
 G C F  
 Trying to tease out the other side  
 G C F  
 Cuz darling I just see you been so sweet to me  
           Am G F  
 I been waiting all the day all night  
           Am G F  
 Would it kill you for some piece of mind  
           C G F  
 Would you take me and not look back  
 Good gracious you're a heart attack

[Solo] F C F Bb  
           Dm G Bb C F

We were something like a movie  
           C F G  
 But she was more the show  
           Am D  
 Spread roots wide in the back of my eyes  
           F C  
 And she never let it slow

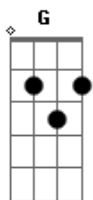

I had my hand full of aces  
           C F G  
 Ran her fingers down the back of my neck  
 Am D  
 I stepped back when she laid down that jack  
           F C  
 I was losing breath

Am G F Am G F
