

# Wild Rivers - Heart Attack

Tom: G  
Intro: C G C F  
Am D F C

I stepped back just to frame it  
And I didn't know too much  
Now my eyes tried to cut through lies  
I was losing touch

Darling I didn't know nothing  
Head like a head full of wine  
Came like a curse I was down in the first  
You didn't use your eye

Oh my you just gotta take a piece of me  
Trying to tease out the other side  
Cuz darling I just see you been so sweet to me  
I been waiting all the day all night  
Would it kill you for some piece of mind  
Would you take me and not look back  
Good gracious you're a heart attack

[Solo] F C F Bb  
Dm G Bb C F

We were something like a movie  
But she was more the show  
Spread roots wide in the back of my eyes  
And she never let it slow

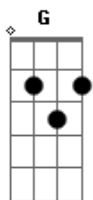

I had my hand full of aces  
Ran her fingers down the back of my neck  
I stepped back when she laid down that jack  
I was losing breath
