

Will Joseph Cook - Girls Like Me

Tom: G

She knows me so well
 It's crazy when I think of it
 But my heart just needs help
 Maybe later we could parlay
 Now looking back
 I guess it was a kind of hazy
 Got me caught up and frustrated in love
 Looking back
 How did things always get so heavy
 I was escalating every touch
 You say la la la la la la la
 Girls like me don't come around that much
 You say la la la la la la la
 But I've been waking up without ya
 Looking at the trees
 It's crazy what they do to me
 Finding new functions
 Still running from the same fears
 Now looking back
 I guess it was a kind of hazy
 Got me caught up and frustrated in love
 Looking back
 How did things always get so heavy
 I was escalating every touch
 You say la la la la la la la
 Girls like me don't come around that much
 You say la la la la la la la
 But I've been waking up without ya
 Mona Lisa come out your shell

Heaven knows that I got ya girl
 Tell 'em all that it's not a drill
 Come on, come on
 Well, I can't swim in all that worry
 Trying to make the best of drowning
 It's just simple mathematics
 Baby, it's you that always mattered
 You say la la la la la la la
 Girls like you don't come around that much
 You say la la la la la la la
 But I've been waking up without ya
 Mona Lisa come out your shell
 Heaven knows that I got ya girl
 Tell 'em all that it's not a drill
 Come on, come on
 I want your love
 And your head on my bed you know
 I feel your touch, and it's good
 And your starting low
 No more enough
 I'm chasing what I had before
 Everybody's just talking
 Everybody else is boring me
 I want your love
 And your head on my bed you know
 I feel your touch, and it's good
 And your starting low
 No more enough
 I'm chasing what I had before
 Everybody's just talking
 Everybody just seems the same
 Just tell me la
