

# Willie Nelson - Changing Skies

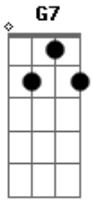

tom:  
 There's a bird in the sky  
 Flying high flying high  
 To a place from a place  
 Changing skies changing skies  
 There are clouds in the sky

Clouds of fear and despair  
 But love like ours never dies  
 Changing skies changing skies  
 Little bird have you heard  
 Freedom lies freedom lies  
 But love like ours never dies  
 Just changing skies changing skies
