

Willie Nelson - Whiskey River

tom:
 Whiskey River take my mind
 Don't let her memory torture me
 Whiskey River don't run dry
 You're all I've got take care of me
 I'm drowning in a whiskey river
 Bathing my mem'ried mind
 In the wetness of its soul
 Feeling the amber current
 Flowing from my mind

And leaving a heart you left so cold
 Whiskey River take my mind
 Don't let her memory torture me
 Whiskey River don't run dry
 You're all I've got take care of me
 I'm drowning in a whiskey river
 Bathing my mem'ried mind
 In the wetness of its soul
 Feeling the amber current
 Flowing from my mind
 And leaving a heart you left so cold
