

# X The Band - White Girl

tom:

Intro: G G G

[Riff 1]

[Primeira Parte]

She's blonde  
She's blonde  
Comes along the sidewalk

She's Blonde  
Leave a trail of blue and black  
Up to you fighting back

She's Blonde  
Steel chains  
A noose of charms on our necks

I find out nothing when we talk and sit  
Blue heart passion and watch the set

[Pré-Refrão]

Easy to fall, when part of your skull starts to break away  
Cheaters walk, down the block behind this evil street

[Refrão]

She's a white girl well I'm living with a white girl  
She's a white girl well I'm living with a white girl-

[Segunda Parte]

[Riff 1]

Nineteen  
Nineteen.. losing her man to an old girl

Nineteen  
Drain every beer left over at home  
and listen to ghosts in the other room

I Can't!  
Why not? You're alone inside his keeping

Oh I'll replace your drunk old man  
Sit in the parking lot and hold your hand

[Pré-Refrão]

Easy to fall, when part of your skull starts to break away  
Drugged and in love out at a club pulling me outside

She's a white girl well I'm living with a white girl  
She's a white girl well I'm living with a white girl

Easy to fall, when part of your skull starts to break away  
Drugged and in love out at a club pulling me outside

She's a white girl well I'm living with a white girl

She's a white girl well I'm living with a white girl
