Intro: C C G D

I don't know when it started

I think that one day I just woke up in love with you

[Primeira Parte]

God damn, she's got herself a girlfriend now

Well, I guess she finally came out

Wish I coulda waited around

Maybe it coulda been me

It's all good

I'm always wanting more than I should

And I bet you'd really love me if you could

'Cause if the wishes on my candles came true, it woulda been you

[Pré-Refrão]

We were nineteen and the world was hard to please

My daddy didn't understand

That I just couldn't love a man the way I love you

It's all that I do

[Refrão]

But it be would nice if you would walk me home

Leave your coat and your keys in the corridor

Would you kiss m? a little more?

It would be fun if you and me coulda won

Walked off together into the sun

Where you would call me the one

It woulda been sweet if you had married me

But its all good baby, we were only nineteen

[Ponte]

Just promise me one thing

Don't go getting married

'Cause I'm going to cross oceans for you one day

[Segunda Parte]

God damn, I'm stuck on this once again

And I don't know if we can be friends

One look at you and I'm a mess

Well, I dug out your old letters

They still make me weak

And I know it's been years but it killed me to leave

And I know it killed you too

Midsummer afternoon on Redwood Avenue

If I could hold you once again I wouldn't let you loose

I wouldn't make you choose

I wouldn't make you choose

I wish I was ready for you now

[Refrão]

But it be would be nice if you would walk me home

Leave your coat and your keys in the corridor

Would you kiss me a little more?

It would be fun if you and me coulda won (Coulda won)

Walked off together into the sun

Where you would call me the one

It woulda been sweet if you had married me

But it's all good baby, we were only nineteen

[Pré-Refrão]

We try not to think about it

We try not to think about it

We try not to think about it

I still think about it

Do you think about it?

(How)

[Ponte 2]

We grew up, we moved out

We fucked up, fucked around

Got a job, made some money

Blew it all, it's kinda funny

You don't talk to your dad

I don't talk when I'm mad

We get scared, don't admit it

I don't care, you don't feel it

Breaking hearts just for fun 'cause we could

It's so dumb

Fall in love and too young

Fall apart in my arms

And I know that it hurts 'cause I'm feeling so far

My darling I promise

Ain't this what you wanted?
What you wanted?

[Refrão]

And it would be nice if you would walk me home
Leave your coat and your keys in the corridor
Would you kiss me a little more? Oh
And it would be fun if you and me coulda won
Walked off together into the sun
And you would call me the one

(You can call me, baby you can call me)

And it would be sweet if you would marry me
But it's all good baby, yeah, it's all good
It's all good baby, yeah, it's all

[Final]

I would've loved, would've loved you forever
It's never enough but I wanted it to be
Every night you were sleeping in my sweater
It's never enough but you wanted it to be
I would've love, would've loved you forever
It's never enough but I wanted it to be
Every night you were sleeping in my sweater
It's never enough, but you wanted it to be
Oh, you wanted it to be
Mmm, mmm
I'm dragging on the ending of this letter because I'm afraid
Afraid that once I stop writing
That's it for our story
I hope that's not the case
A love like ours never really goes away
