

Years & Years - Ready For You

```
Tom: Eb
  Fm
See the colour of your eyes
Make your body move like mine
Then I showed you what to do
I made it easier for you
You've got another boy to lose
But does he want you like I do?
I bet you've seen it all before
I bet you always wanted more
You and me, we'll make it serious now
And I'll be good if you can tell me how
Cause I been wondering lately
Are you the one that's gonna hold me down?
                 Fm Eb
Can you tell me, oh, and would you lead me on?
                     Fm Eb
Would you start me over? I'm ready to be torn apart
   Fm Eb
                               Bb Cm
And oh, and would you break my heart?
                  Fm
And I'll break it for you, I'm ready to be torn apart
Oh, I'm ready for you, I'm ready for you
                   \mathsf{Cm}
I'm ready for you, oh now, I'm ready for you
                    Fb
I'm ready for you, I'm ready for you
                   \mathsf{Cm}
I'm ready for you, oh now, I'm ready for you
And as you see me start to play
It's the way that I was made
I refuse to tread the line
