Broken by the love

This hurt divides itself

Decided that kissing you is bad for my health

So I'm gonna ride

I'm going the other way

I would've told you why

If there was any space for me

To say, to say

Oh don't you see it now?

I'm staying for a little while

Oh don't you see it now?

I'm staying for a little while

I looked you right in your eye
And asked you why it has to be this way
I don't know

And to my surprise, you did say
This is just you and I babe
You and I babe

Oh don't you see it now?

I'm staying for a little while

Oh don't you see it now?

I'm staying for a little while

So I'm gonna ride

I'm going the other way

I would've told you why

If there was any space for me

To say, to say

Oh don't you see it now?

I'm staying for a little while

Oh don't you see it now?

I'm staying for a little while
