Tom: C
Intro: C Am F C

C
Look at me
And listen close
So I can tell you how I feel before I go

Just a year
It's not much time
For me to show you I am proud that you are mine

Dm F
I wish I had known
The future in my heart
Was just about to start

C
Say tomorrow
I can't follow you there

Just close your eyes
And sing for me

C
I will hear you
Always near you
And I'll give you the words
Just sing for me

C
Every lock
On every door
I put them there to try and hide you from the world

C
And you kicked
Yeah you screamed
You never understood you're everything to me

Dm F
I just hope you know
The future in your heart
Is just about to start

Say tomorrow
I can't follow you there
Just close your eyes
And sing for me

Always near you
And I'll give you the words
Just sing for me
