

Yohan Barros - Something

tom:
 Fm (forma dos acordes no tom de Dm)
 Capotraste na 3ª casa
 Intro: Dm C

For all the things that you can never do
 Everyday I suffered
 For all the times that I've been tried, to be a woman
 Everyday I suffered
 Baby oh, can I tell you?
 My heart is a fucking mess, since you left
 Like your bedroom, when you're run away, for your job
 And you say: Don't look at the mess, do you remember too?

There are something in the way
 Something in the way
 Something in the way
 There are something in the way
 Something in the way
 Something in the way

Is that the way you deal with the things?
 That is the way your treat your heart too?
 Why sould I be surprised? When I realized
 That all the time just passed by my eyes
 Well I want to cry, I just can't deny
 My heart is so cold, ther's no way, no cry
 Why? I'm just askin' why
 Everyone act like you

Throwing all away, nothing left to say
 I hate goodbyes too

What a fool for you
 What a junkie too
 What you expect to do?
 What you done to you?

There are something in the way
 Something in the way
 Something in the way
 There are something in the way
 Something in the way
 Something in the way
 There's no place to go

No place to still
 Even with my pillows, girl
 My head's heavy like steel
 And I'm sorry If I, refused to see
 There's no way to help
 There's no reason for some shit

Something in the way
 Something in the way
 Somenthing in your way
 Something in the way
 Something in the way
 Somenthing in your way

Acordes
