I was afraid to be me

Be anyone you want to be

Be anyone you want to be

I don't blame my week

For my not being able to speak

Clearly about things I've said before

And if it's light outside night will fall, night will fall

And if it's li-i-i-i-i-i-fe it resolves

It reso-o-o-o-o-o-o-o-o-o-lves

Everywhere you are in a maze is a lie

Anywhere you are on a page you still go to the right

Anytime there's no ground below you you're in the sky

Anytime you're afraid it's gonna be alright

It's gonna be alright

B Ebm Abm Gb E

I was a flame in the night

I heard what I wanted to hear

And the moment I disappeared

B Ebm Abm Gb

I grew the size of all outside

E Gb B

Cuz I-I-I I became one with the night

And if it's re-e-e-a-al it's not all, it's not all, baby

Ebm E B Gb E

There's a lo-o-o-o-o-o-o-o-t in what appears not to be there at all

(Ebm E B)

Ebm Abm E Gb B Gb E

And you can function if someone decides who you are

Ebm Abm E Gb B Gb E

And you can function if someone decides who you are

Ebm Abm E Gb B Gb E

And you can function if someone decides who you are

Ebm Abm E Gb Abm

And you can function if someone decides who you are
