

Yoñlu - Suicide Song

Tom: **B**

m
 Back into your arms because I just can't be
 Anything outside of them
 Reinvaginated just to rewind
 Back to the time I had a future I could see

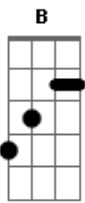

Now I find that days slip through in loneliness
 Now I see it doesn't help to understand
 How the pain became world-sized
 How I realized

That life is losing friends

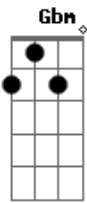

Try to see through these sheets of shit poetry
 And see what there is left
 See, I'm sad 'cause I'alone in this world and
 Writing doesn't seem to help

Now she's gone like everyone I ever met
 Now my suicide is lit by the sunset
 It's pretty sad if you ask me
 I don't think I will be
 Around to see your face again
