

# Young The Giant - Camera

Tom: C

It's a mystery night  
 Like a sawed-off shot gun  
 In the morning light it comes to anyone  
 All the strings that follow you  
 And the things they're tied to  
 My love's behind you colored by the snow  
 The shine is gone

I used to know what made you wet  
 Now I'm searching for it  
 Cause it's a mystery all the same  
 Not to get you back

[Refrão]

On holiday  
 With a broken camera  
 And all I say  
 Is "I could be happier"  
 I could be happier

It's a mystery night  
 And I thought we had fun  
 But in the morning light  
 Your cars already gone  
 Do the things I wanna do  
 Not the ones I'm supposed to

Why can't I get close to  
 The man I saw in me  
 When I was young

[Refrão]

On holiday  
 With a broken camera  
 And all I say  
 Is "I could be happier"  
 And all I say  
 Is "I could be happier"

All up the way  
 I'm free of all the shadows that follow me  
 Of all the branches up to break  
 With all my faith

Destiny and fate  
 Cause I never wanna go there tonight

The cameras, cameras  
 I never wanna open up my eyes

The cameras, the cameras  
 No cameras  
 No cameras

( G Em G F )  
 ( Am Em G Dm )

Cause I never wanna go there tonight  
 I never wanna open up my eyes

( Am )
